

Glenbeigh

The Glenbeigh Group is established since 1985.
One of Ireland's most successful integrated construction companies with a rapidly expanding portfolio in the UK the UAE and elsewhere.

- Experts in traditional construction.
- Modular building design and construction at our leading edge manufacturing facility.
- Pioneers of an innovative and revolutionary steel framed building system using cold forming machinery and advanced light gauge steel construction techniques.
- Modular building method in great demand by Government, semi-state and commercial project owners nationwide.
- Pre-build offers improved accuracy, accelerated construction with reduced labour, materials and waste on site.
- Brings highest levels of quality systems, construction and finish to every project whilst delivering within budget and on time, every time.
